

Touring Gardens of the SCV

The SCV Family of Water Suppliers recently launched a new gardening and landscaping website, santaclaritagardens.com, to help residents navigate the challenging gardening terrain of the SCV. One of the most unique features of the site is the garden tours section. This section allows website visitors to stroll through gardens found in the SCV without leaving the comfort of their home.

A visit to the “Southwest Garden”, the first tour listed on the site, begins at a rustic, blue adobe entry way. As the visitor proceeds through the garden, by clicking the “next” button in the upper right hand corner, they are greeted by statues, water fountains, decorative tiled stairs, outdoor furniture, and rustic gates all surrounded by SCV-friendly plants.

It shouldn't take long for visitors to notice little white boxes dotting the landscape. These boxes are “hot links” that provide basic information about the plants when hovered over with the cursor and navigate to detailed information in the “Plants” section when clicked. Visitors have the ability to add plants they see on their tour to a list, “My List”, that is easily printable for the next shopping trip at SCV's local nurseries.

Whether visitors are simply looking to enjoy a stroll through a garden or are looking for new landscaping ideas, taking a tour of the gardens on santaclaritagardens.com is a great way to discover beautiful plants that thrive in the SCV.
